EXPERIENCE

Front End Developer(React Native) Healiom Inc	Aug 2022 - Present <i>California, United States</i>
---	--

- Expertly developed advanced user interfaces, incorporating 3rd-party SDKs like Zoom and Stream Chat, web sockets, and robust API integrations within React Native applications, enhancing app functionality and user engagement.
- Transformed complex Figma designs into intuitive, user-centric interfaces.
- Maintained code integrity and application scalability through strict quality control and documentation.
- Published numerous apps on the App Store and Play Store, broadening market reach
- Quickly adapted to changing technology trends and project requirements, maintaining team agility.

Associate React native Developer Appsfactor technology pvt. Ltd.	Jan, 2022 - June, 2022 <i>Haridwar, Uttrakhand</i>
--	---

- I excelled as an Associate React Native Developer at a reputable organization, spearheading the seamless development of UI- centric hybrid applications.

PROJECTS

Health Care App

Designed React Native UI for Healiom healthcare app, implemented detox tests for smoother UX, and achieved 25% bug and crash reduction.

Food and Grocery Delivery App

Developed a user-friendly mobile application facilitating seamless food and grocery deliveries, focusing on efficient order management and real-time tracking.
